## Action Taken Report -2019-20

This year as usual yearly feedback was collected from the students for further enhancement. So for this year 2019-20 the feedback was collected and the following action was taken.

Though the students are satisfied with the material and resources, still it was decided that some additional material though in the form of some small education videos then practical case studies and experiential learning needs to be incorporated which will help the students in enhancing their knowledge. Accordingly a discussion with the teaching staff was arranged and it was decided that teachers should also attend some workshops/ seminars for the same.

The syllabus as provided by the Mumbai University is more theoretical which lacks to suffice to provide the skill based approach to make them fit for job. As the syllabus is decided by the university, it was decided some skill based add on courses were decided to be incorporated like GST filling, advance communication skills, IT related courses and so on. As the syllabus decision is of the university of Mumbai our teachers are giving their feedback in the workshops regarding the inclusion of more practical subjects in the syllabus.

The college is frequently arranging the workshops/special lectures etc. The students are attending the same. It was decided that they should also be encouraged to participate in seminar / workshops outside the college so that they can have more exposure which will make them more capable. The teachers were involved in this decision and the role of motivating the student was their responsibility further for the same.

The workshops / seminars conducted from time to time help them gain more knowledge and hence more no. of such sessions will be arranged in the days to come at the same time they will also be encouraged to participate in such events in

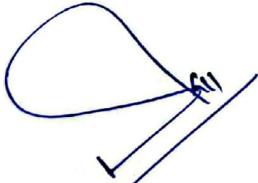

Ayre Road, Dombivli (East) 421 201, Dist. Thane. Ph. No. : 0251 - 2431 606

other colleges for which the needed financial support in the form of fees of such workshops will be reimbursed to them.

The college is always encouraging the students to participate in co-curricular activities. The students will be encouraged to participate more in the inter-collegiate and university level competitions. For this the relevant experts will be arranged for training and guiding them.

To be in pace with the technology its usage in teaching learning process was necessary. So PPT based learning was decided to be implement and accordingly the arrangements were decided to be made. The heads of departments were told to inform the teachers and make necessary arrangements to provide guidance if any required to them in this connection.
