DEMONETIZATION & ITS IMPACT ON ECONOMY ACTIVITY

Demonetization is the act of stripping a currency unit of its status as legal tender. It means either introducing new notes or coins of the same currency or fully replacing the old currency with new currency. **Government of India** demonetized 500 & 1,000 rupee notes from 8th November, 2016. The measure was taken by the Prime Minister in attempt to resolve the issuance of corruption, black money & counterfeit notes & another motive to encourage cashless transaction.

Demonetization is fruitful or not and what its impact on economic activity, for that **Eknath B. Madhavi Senior College of Arts, Commerce & Science** had organised one day seminar on demonetization & its impact on economic activity on 10th September, 2017. Our College Principal welcome & introduced the resource person Dr. Avinash Shendre.

The speaker, Dr. Avinash Shendre, had imparted information on the effects of demonetisation on various economic activities. He also discussed the positive & negative effects of demonetisation.

Vote of thanks was proposed by Prof. Utrisha Ghanshani.
